

AMSOSA UK

ADULT MALE SURVIVORS OF SEXUAL ABUSE

**HELPLINE:
0845 430 9371**

AMSOSA supports and works with adult males who have experienced childhood abuse and or adult sexual assaults.

Survivors know this fear is so strong that it can make you feel physically sick and empty inside, or give you a rage that sometimes feels like it will spiral out of control.

Being a child where abuse is a way of life inevitably leads to the destruction of childhood innocence.

People who have not experienced abuse can only imagine what it feels like to experience total fear, isolation and loneliness.

We support and empower MALE SURVIVORS, who have suffered child sexual abuse, and or adult sexual assault, in group therapy sessions, telephone helpline and counselling.

It's hard to carry the legacy of the abuse alone, so let us help you to enable yourself.
